Dolphin M 200

The basic reliable robotic cleaner. With minimum investment you can enjoy expert cleaning of the pool floor and walls, including the difficult-to-reach angle where the floor meets the walls.

Dolphin M 400

Step-up to a new experience. Get an ultimate full-pool clean, including the floor, walls, and waterline, with total coverage regardless of pool shape, slope or obstacles.

Dolphin M 500

Maximize your enjoyment and relax, with remote controlled setup and programs, and intervention-free cleaning of the pool floor, walls and waterline.

Starting in 1983, we pioneered automated electronic pool cleaning technology. And today, Maytronics remains the market leader, continually setting new standards for technological innovation, design and reliability.

In everything we do, we strive to make pool owners' and users' lives easier and more enjoyable. Our goal: to enable an exceptional experience of a pure, clean, safe and relaxing pool.

About Maytronics

Nobody knows robotic pool cleaners like Maytronics – the company behind top-selling Dolphin robots. For more than 30 years, we have been developing robotic cleaning solutions for the world's swimming pools.

Enjoy the Dolphin advantages

The Dolphin M series of robotic pool cleaners was designed with the pool owner in mind. Get powerful performance coupled with exclusive Dolphin features that you won't find in any other cleaners! Real solutions for real pool challenges.

As the market's favorite for more than four years, Dolphin M robots have earned top marks for:

Superior cleaning performance

- Total cleaning all the way to the waterline, with triple-action brushing that scrubs away algae and bacteria
- Superior collection of dirt and debris leaves water crystal-clear
- Precise self-adjusting navigation and full-coverage cleaning – with gyroscopic navigation system

Long-lasting reliability

- Built to last – for years of hassle-free cleaning
- Clog-free operation in all pool conditions – with dual-level filter and two filtration options

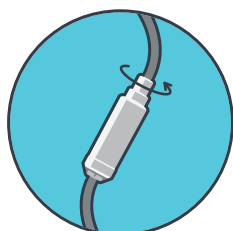

Effort-free operation

- Fully automated – just set it and forget it
- Nonstop cleaning – with advanced obstacle escape mechanism

Superb pool cleaning made easy

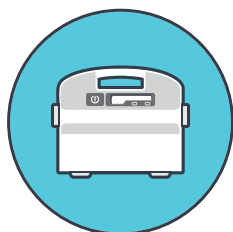

Swivel - cable tangle prevention system

Dolphin's swivel cable eliminates tangled cables forever! As your Dolphin moves around the pool, the swivel ensures that the cable stays free and clear, allowing for complete pool coverage.

Fast Fix - Easy repair

This Dolphin is designed for fast fixes. Your dealer can repair and replace most parts without sending it to the factory, so you'll have your Dolphin back in next to no time.

Multi-Function Power Supply

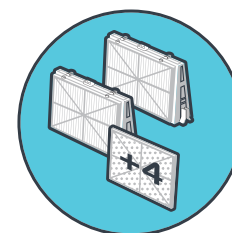

Preset your Dolphin operation at a touch! Easily set cleaning programs, cycle time and a weekly schedule, delay operation, and check filter bag status, all via the touch-screen power unit.

Advanced scanning software and gyroscopic navigation system ensure floor, walls and waterline are fully covered using the most efficient route. The Dolphin automatically navigates around obstacles and quickly returns to its cleaning pattern.

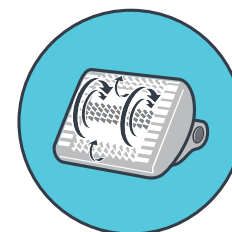

CleverClean™ Coverage + Gyro - precise navigation system

Dual-level filtering ensures clog-free operation in any pool conditions. Use the net filter at the start of season to clear rough debris; for regular use, catch fine and rough dirt with the ultra-fine filter cartridge.

Ultra-fine Cartridge - with additional choice of net filters

Triple-action brushing delivers extra-effective scrubbing and cleaning. The active brush spins at 2x the speed of the robot to scrub away algae and bacteria, leaving your pool water clean, clear, and healthy.

Triple-Action Brushing
